Train Time Table Changes.

A change in the running time
of the Prince Rupert train service
took effect on Saturday last, and
is as follows—

Train No. 189, going west, leaves
Stony Plain at 22.37 Tues., Thurs.
Saturday.

Train No. 190, instead of going
East from Stony at 20.15 as formerly,
goes thru now at 4.51 every
Mon., Thurs., Sat.

A Lawn Social for This Evg.

A Lawn Social will be held
this Thursday evening at the
home of Mr and Mrs Lory
under the auspices of the
United Ladies Aid. Prizes
will be awarded for games,
contests, and a 100 yard dash.
Refreshments will be served;
and there is to be a sale of
home-cooking. Everyone invited.

The Exams. in Music.

On Sat. afternoon last
three of our local amateur
singers, Miss Mary Campbell,
Miss Hazel Becker, Miss
Raechel Willie, were examined
on the subject of Elementary
Theory, by an examining
Committee at the Macdonald Hotel,
and are now awaiting the
results of these exams.

The U. F. A. Picnic

The annual U. F. A. picnic
and rally of the Stony Plain
Constituency was held this
week at Seba Beach. A ball tournament sponsored by the
Seba Beach Community Club
was one of the features. Those
billed to make speeches, besides
our member, were Premier
Brownlee; Mrs Price,
Pres. U F W A; and Wm.
Irvine, a member of the
House of Commons.

Sentenced for Theft.

Taking full responsibility
for a series of thefts from
summer cottage at South Edmonton
Beach during last winter, although admitting
he was shielding others involved,
Carl Kulak was sentenced
to six months' hard labor in
Fort Saskatchewan jail on each of three charges of
house-breaking, by Magistrate
Primrose in city police court,
Thursday. The sentences will run concurrently.

All in Favor of a Sports Day?

With the recent big revival
of sports in many branches
here, a movement is on foot
to try and have Stony Plain
the sports centre on Dominion
Day, July First, as it formerly
had been for a number of
years. None of the local teams
in baseball leagues have games
scheduled for that day, leaving
July 1st open for a big
ball tournament here.

The members of the Town
Band are also interesting
themselves in the movement,
and members of the Town
Council have been approached
and seem favorable to the enter-
prise.

There is no doubt but that
such a sports day on July 1st
would be welcomed by those
residing in the town and dis-
trict.

—MODERATE CHARGES.—

The 25th Anniversary of The Reformed Church.

The sessions of the Edmonton Chassis, which were held in the Reformed Church at Glory Hills from June 14 to 17, were given over to routine business, in which all requests from the higher judicatories of the Church were given due consideration. Much time, also, was spent in discussions pertaining to the own local congregations.

The reports as brought by the Delegates were very gratifying. The Stated Clerk reported on the Statistic loss in Membership 28, gain in benevolence 20 per cent.; and in all other departments approximately the same as last year.

The Delegates were entertained in the homes of the following members: Mr and Mrs John A. Willie, Mr and Mrs George Webber, Mr and Mrs Albert Fischer, Mr and Mrs Conrad Henkel, Mr and Mrs John Miller, Mr and Mrs Wm. Webber, Mrs A. Strass.

The delegates also joined in the celebration of the twenty-fifth anniversary of the congregation on Sunday, June 18th. The morning service at which Rev G. Heuer, as well as the afternoon service at which Rev Korn and Rev Wienbrauck preached, also a short history sketch of the congregation was read, was well attended.

Visitors were present from Vegreville, Brush Hill, Martins, Bruderhof, Edmonton, Mewassin, and many from the immediate vicinity.

The Ladies of the congregation served lunch to about 55 guests.

ORANGE PEKOE BLEND "SALADA" TEA

"Fresh from the Gardens"

World's Future At Stake

The World Economic Conference now meeting in London constitutes what is probably the greatest assemblage of nations ever convened in the history of the world. In his opening address, Premier Ramsay MacDonald declared: "There is greater authority gathered in this hall than has perhaps ever been brought under one roof in the world's history."

Sixty-seven nations are represented in this momentous conference, or a larger number of separate national units than most people had knowledge existed. But it is not alone the size of the gathering that makes it outstanding in importance among all great world economic conferences; rather it is the fact that, for the first time since the Great War, it is composed of Government plenipotentiaries with the power to act.

As one well known economic authority points out, there have been many economic conferences in the past ten years, but they were composed of experts who were called upon merely to advise, but without authority to commit their Governments. The present conference is quite different; it is made up of representatives of the Governments of all nations, clothed with authority to reach definite agreements, thereby committing these Governments to execute the power of authority to secure ratification of such agreements by their various legislative bodies. There is, therefore, hope that definite action will result.

Whether such action does result depends, says the economic authority already quoted, upon the answer to a fundamental question. Will the Governments really turn their backs on the ideal of national self-sufficiency, and try to rebuild prosperity on a basis of interdependence and mutual benefit in international trade, even though that may involve a modification of their present national policies? If so, then there is no reason why the Conference should not be a great success. But, if not, there is little hope of preventing a drift into even greater depression, the ultimate outcome of which no man can forecast.

This is the crux of the whole matter, and discussing it in his opening address, Premier Ramsay MacDonald further said: "Have we come to deliberate and decide as though our respective nations were isolated units in the world? Then we shall fall and the world which looks upon us today with expectations will have to drain a bitter cup of disappointment. Have we come knowing that the permanent good of each is dependent upon the permanent good of all, and determined to co-operate in coming to agreements which will make a renewal of prosperity possible? Then we shall succeed, and expectations of the world will be justified. We must not fail."

And His Majesty the King in opening the conference sounded the keynote when in a stirring appeal he said: "In the face of a crisis which all realize and acknowledge, I appeal to you all to co-operate for the sake of the ultimate good of the whole world. It cannot be beyond the powers of man so to use the vast resources of the world as to insure the material progress of civilization."

Surely it is inconceivable that the leading statesmen of the world, men clothed with all the responsibilities of government and whose very positions have made them full cognizant of the underlying and fundamental causes of the world's present economic sickness, will be so nationalistically selfish, so neglectful of their own and their countries' responsibilities to the world at large, as to take such irreconcilable attitudes that the success of the conference will be wrecked.

President Roosevelt in his stirring pre-conference appeal to the sovereign heads of all nations stressed the terrible responsibility that would rest on any nation, or group of nations, which stood out against the rest of the world in their insistence upon narrow nationalistic and purely selfish policies. He realizes, as Premier Ramsay MacDonald realizes, and as all sane and sensible people must realize, that a purely national economic policy in this modern world is one which by impoverishing other nations, impoverishes those who pursue it. No nation can permanently enrich itself at the expense of others. Mutual enrichment is a condition of individual enrichment.

To quote Premier Ramsay MacDonald once again: "Nationalism in the sphere of politics may be essential to human freedom. Self-sufficient nationalism in economics is the death knell of advancing prosperity. The nearer we can make the world an economic unit the better will it be for each nation. In any event, international co-operation is our best way to national recovery, and the nation which looks after itself in an international frame of mind will not only lead the world in enlightenment but is well-being."

Narrow nationalism must go. If it does not, the very nations which persist in it will themselves go—go down in the crash and debacle of a destroyed civilization. The present World Economic Conference is a turning point in the life of the present generation. The hope and prayer of the teeming masses of the world's population is that their leaders will rise to the occasion, and courageously and energetically take the right road.

Power Of Imagination

"I'm shot," yelled a burglar when police cornered him in a New York grocery store. Amazed, the policemen, who had not fired a shot, watched him slump to the floor with what looked like blood covering his face. Drawing nearer, they guffawed. The blood was the yolk of an egg which had fallen on his head from a shelf.

Returned For Instructions

"You remember when you cured my rheumatism a couple of years ago?" asked the patient; "and you told me that I should avoid dampness?"

"Yes, that's right," replied the doctor, approvingly.

"Well, I've come back to ask you if I can take a bath now?"

For sale at all drug and general stores; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Nervous—Could Not Sleep Tired Out All The Time

Mr. George Ballouer, Neurologist, N.Y., writes:—"I was so very nervous I could not sleep at night, and feel tired out all the time."

A neighbor told me about Milburn's Heart and Nerve Pills, and as she was using them at the time she gave me some to try. I found they were doing me so much good I procured two boxes and they proved of wonderful help to me."

Would Only Benefit Few

Many People Would Suffer If Prices Unduly Increased

The United States and Europe are trying to combine so as to raise prices all round. If wheat were \$10 per bushel and everything else up in proportion, would the wheat be in a better position than if wheat were \$1 per bushel and everything else priced in proportion? If a man should die at fifty, he would leave a wife fifty years of age with an income of \$500 a year how could she get along when increased prices for necessities came upon her?

The widows, and men who have retired because of age, because of sickness, women who have saved enough to live modestly, the great array of children who are unfit for work, etc. The rise in price of lumber might help the woodman, the increase in the price of steel might help the makers of steel and their puddlers, but in going all around the social circle it would crush perhaps as many as it would lift up. This is especially true of country villages and towns, where there are more people living on small incomes in proportion to population than in larger places. If we talk of a national fund to help these people with small incomes, we complete the circle and arrive at every place from which we started. We might just as well leave things as they are and let old supply and demand do the regulating of prices.—Port Rowan News.

Freight Rate On Butter

Move Made By Western Provinces For Better Consideration

Joint action on the part of the Provincial dairy associations of Manitoba, Saskatchewan and Alberta will likely be taken shortly to obtain a reduction in the freight rate on butter shipments from the prairie to Vancouver and Western Canada.

This move follows upon the rejection by the board of railroads of an application for a reduction in the freight rate on butter shipments from the prairies to Vancouver and to Eastern Canada. Freight rates on butter are the same now as they were when the product was selling for 40 cents per pound.

Saskatchewan dairy representatives have already communicated with officials of the two sister provinces with a view to holding a meeting and planning a joint appeal to the board of railway commissioners for a rehearing of the case.

Dick Turpin's Coat

Money and Jewels Found Recently In Linings Of Old Garment

Money and jewelry have been found in the lining of a pink-colored velvet coat which belonged to Dick Turpin, the famous highwayman.

The coat was recently bought by Mr. Rutter, of Cambridge, along with the mask, pistols and spur which Dick Turpin left at the Three Tuns Inn, Cambridge, on Jan. 12, 1739, when he escaped from the Newgate runners.

He never claimed them before he was hanged at York on April 10 of the same year, and they passed to an excise man, from whose great-grandson at Cardiff Mr. Rutter bought them for £50.

While Mr. Rutter was carrying the coat, a George I, half-drown, dated 1717, fell from the lining. The other articles were found, comprising: Six silver coins, two copper coins, a gold ring, two silver rings, and a pair of silver-gilt ear-rings.

French Eat Less Bread

Bread-eating capacity of the French is steadily declining, says Edmond Chaix, president of the Touring Club of France. Once the world's champion bread-eaters with a daily per capita consumption of two pounds, the modern Frenchman consumes but one pound ten ounces. Mr. Chaix blames the decline on the war, during which, he says, his countrymen became tired of poor quality bread.

Grows Larger In Canada

A new record for Loch Lomond trout in Canada was established recently with the taking of one weighing 10 pounds 2 ounces in the Cypress Hills area, Saskatchewan, a weight several times that of the average for the species in Scotland, its original home.

Wild Cattle In England

Unique Herd Maintained On One Of Oldest Estates

It may surprise many people to know that there are wild cattle in England, yet there is an authentic herd, not running wild, but living on the estate of one of England's oldest peers, the Earl of Tankerville, in Northumberland.

For centuries these animals have had their habitat on the Earl's woodland demesne of 700 acres, which is so stoutly enclosed by a stone wall that the breed has remained pure for upwards of five hundred years. There are just 44 of them, but as it costs quite a sum to feed and care for them without producing any return the Earl has been obliged to ask for some assistance in their maintenance. The Sociological Society has come forward, and the preservation of this unique herd is assured.

These cattle are pure white with red muzzles, and black tips to their upward tilted horns. They are smaller than ordinary cows, extremely shy despite the fact that nobody ever seeks to touch them, and are dangerous to strangers.

It is said they are descendants of the aurochs, primitive wild oxen, which were hunted in England by Roman soldiers when the Caesars had sway.—St. Thomas Times-Journal.

Wager Was Easily Won

New York Times Outwitted By Young Club Man

In the course of an argument among some of the younger members of the University Club, one of the group made a generalization that writing poetry was easy and that, although God knows, no poet could write a poem and get it printed.

Moreover, he could get it printed in the New York Times. He had cash that said he could. Money to cover his wages bobbed up once. Then with a little effort he wrote a poem, and he wrote a slight poem that had some rhymes. The incurable Times came next. On that matter, he showed himself a young man of invention. First, he wrote a letter signed A.B.C., to the question-and-answer department of the paper's book section, asking if some reader could give the last four lines of the poem which began—and he quoted the first four lines of his poem. The Times ran it. He immediately replied, signing A.B.C., giving X.Y.Z., the last four lines of the poem. The Times, never suspecting, ran that. Then, after some mild grumbling about instalment publication, he drew down his bet.—New Yorker.

Prize For Essay

Fellowship Amounting To \$1,000 Offered For Best Essay On Economic Problems

A graduate fellowship, amounting to \$1,000, is offered by the Royal Bank of Canada to the students of a Canadian university who writes the best essay on a Canadian economic problem.

The subjects for the papers to be submitted by March 1, 1934, are as follows:

An analysis of Canadian industry. The restoration of international movements of capital as a basis for an increased volume of trade.

The discussions and results of the world economic conference.

The future of the export trade in Canadian agriculture.

Possible development of power-using industries in eastern Canada.

Have Helped Greatly

Many newspapers have drawn the contrast and commented on the talk about there being a depression while at the same time picture shows are crowded. Picture shows have been one of the valuable things of the depression era, giving the people a chance to distract their minds and thoughts to something other than themselves and their own troubles.

May Not Affect Earth

Dr. Charles Abbott, the American astronomer, predicts that the sun will be colder for the next two years. This does not necessarily mean that the earth will have two cold years, as the temperature of the earth is affected by many influences besides solar radiation.

FAT MAN LOSES 63 lbs.

Kruschen and Walking

Overweight men who want to lose a few pounds can have the benefit of this man's publication.—

"In a little over twelve months I have reduced my weight from 227 lbs. to 164 lbs., by taking a dose of Kruschen Salts every morning for six months, and taking walking exercises every day. This remarkable achievement is all the more interesting when one considers that I did not resort to any form of dieting."—B. B.

Would you like losing fat you will gain in energy—in endurance—in ambition. The old arm chair won't hold you any more—you'll want to be up and doing, enjoy work and exercise recreation, and you'll sleep like a top. You'll lose fat, and probably live years longer.

Ten Thousand-Foot Tower

French Engineer Proposes To Erect Marvel In Paris

An amazing hollow concrete tower nearly half a mile high, with a spiral motor road leading to a vast superstructure consisting of a garage for 400 cars, a dancing pavilion, a 1,000-seat restaurant, sun-parlor, weather office, and finally a tall slim aerial lighthouse.

This is the breath-taking project of a famous French constructional engineer, M. Eugene Freyssinet.

He proposes this skyscraper marvel, which would completely dwarf the present Eiffel Tower, as an attraction for the world exposition to be held in Paris in 1937.

Visitors would be able to drive in their own cars to the clouds for lunch or dinner.

The spiral road would be four miles long and make thirty turns around the tower. It would be the only means of ascent or descent, for no lift would be installed.

And M. Freyssinet is ready to build the tower up to a height of 10,000 feet, or nearly two miles, if the world exposition will finance it.

He estimates the cost at about two million dollars.

"Don't you think it will be marvelous on a hot day to jump into a motor car and drive up into the clouds, from where you will have a magnificent panorama of the entire Paris region?" he said.

First Canadian Movie

Filmed Under Direction Of Canadian Social Hygiene Council

The first Canadian motion picture produced in Hollywood and the first Hollywood picture to have a premiere in Canada has been placed in circulation. It is "Damaged Lives," the problem play, filmed under direction of the Canadian Social Hygiene Council. In its first week in Toronto it attracted 25,000 persons.

The picture soon will be shown throughout the British Empire. It has been booked for screening in England under sponsorship of the ministry of health. Its producers regard the film as probably the most extensive piece of public health education ever undertaken by means of talking motion picture.

Easily Distracted

A family in Paradise, California, were at breakfast the other morning when they noticed a grown-up African lioness looking in the window. The Associated Press news item adds that the family forgot breakfast. Some people allow anything to distract their attention.

A memorial to Carl Benz, motor car inventor, was unveiled in Mannheim, Germany, recently.

Old Convict Ship "Success" Is Interesting Exhibit Shown At Century Of Progress Fair

A 143-year-old convict ship that once spent five years at the bottom of Sydney Harbor, Australia, and then sailed the Atlantic under her own canvas was the year the "Titanic" went down rear on the lake-front at Chicago as an exhibit of the Century of Progress exhibition.

The vessel, the old "Success," a merchantman before she was fitted out with cells and instruments of torture, is believed to be the oldest ship afloat.

Aboard her are the almost airless dungeons, the condemned cells, whipping posts, manacles, branding irons, punishment hells, the leaden-tipped cat-o'-nine tails and the coffee bath. The craft is practically unchanged after all these years, nothing being omitted but the human freight.

The "Success" was first launched as an armed East India merchantman, with beautiful brass guns bristling from her sides and fitted handsomely for the reception aboard of princes, nabobs, and wealthy traders of the Orient, whose spices, teas, ivories and jewels she carried over the seas to all parts of the earth. Broken only by an occasional conflict with a pirate craft, the "Success" had an honored life of the ocean until 1802, when she was first chartered by the British Government to transport to Australia some classes of offenders from the home jails, who, at that time, were sentenced to from seven to ten years to the term of natural life.

The former convict ship is massively built throughout of solid Burmese teak, a wood which for resistance to decay has no equal in the world. The hull is 135 feet long with a beam of 30 feet. Her solid sides are in places cut stern and portside to admit her at once with the half-moon of antiquity. Although her high bluff bows shows that she could never distinguish herself with speed, pains were taken to make her trim and smart. Remnants of gilded scrolls on the sides of the vessel have been brought to light. Raised high aloft forward, the forecastle head bears at its extremity a symbol of innocence, and beautiful womanhood in an original figurehead of exquisite design.

The vessel, a queer looking craft, strongly reminiscent of bygone days, is fitted with cells throughout. The cells on the lower deck, strong and gloomy, were used for the worst type of criminals. The vessel consists of three decks in all, a top deck, "tw'een deck, and a lower deck. Convicts given in a transportation term, in excess of seven years, were placed in solitary confinement for two years in a cell on the lower deck. The cells had very little ventilation, an opening over the door allowing a sufficient amount of air through. Special misdemeanors cells, known as the black cells, were located at the stern end of the lower deck. In the black holes the doors fit as tightly as valves and close with a "swish," excluding all air except what can filter through the perforated iron plate which was placed over the bars above the door, in order to make the hole as dark as possible. A stout iron ring was fastened about knee high in the shell back of the cell and through the ring the right hand of the prisoner was passed and then handcuffed to the left wrist. He was thus prevented from standing upright or lying down, and was obliged to stoop or lean against the shelves side of the vessel as it rolled to and fro on the waters.

On the "tw'een" deck, cells, barely large enough to accommodate two persons, housed as many as six and seldom less than four at any time. The cells line the sides of the vessel, while along the centre of the decks various types of torture were carried out.

Oil production in Prussia now averages about 125,000 barrels a month.

Occasionally one meets a man whose mind is so weak it can't even wander.

U.S. Grain Crop Is Poor

Believe Production Will Fall Short Of Domestic Needs

United States Government crop reports charging the severe damage produced by bad weather conditions to wheat, indicated American production of the grain will fall short of domestic needs for the first time this century.

On the basis of its reports, total production of 603,000,000 bushels is estimated, while the United States from 620,000,000 bushels upwards each year without considering exports or shipments to territories and Indian possessions, long an important factor.

The crop reporting board, noting severe damage done since June 1, due to abnormally hot and dry weather, estimated production of winter wheat at 341,000,000 bushels, well below average annual production. The board also reported spring wheat crop as "below normal."

Winnipeg Newspaper Union

By Ruth Rogers

WHO SAID "FEMININE" ISN'T IT ADORABLE?

So fresh and smart for lovely spring days.

Crisp white organdie puffed sleeves and bow adorn this navy blue and white crepe silk printed model.

The back is a simple, modish shoulders that jut out over the sleeves that are set in armholes of a separate guimpe.

The skirt is the slim-line type, so trim and smart.

Plain carot-red crepe silk with red and white crepe contrasting is effective too.

Style No. 713 is designed in sizes 14, 16, 18, 20, 22, 24, 26, 28, and 40 inches bust.

Size 16 requires 2 1/2 yards, 39-inch with 1 1/2 yards 35-inch for guimpe.

Price of pattern 20 cents in stamps on envelope (color is preferred). Wrap color carefully.

Old Games Still Popular

Parlor Pastimes Of Eighties Prominent In Chicago Toy Show

The fireside games of 1883 still are the parlor-and basement-games of 1933.

Hundreds of displays at the American Toy Fair recently held in Chicago show that the modern family still plays at ring toss and checkers, anagrams and tickety-winks—all popular indoor sports of the early '80s. Manufacturers have added only, perhaps, a little more chance-taking to the games.

Construction of gaming rooms in celars has led to a revival of the gun and bee-bee gun games for adult players, exhibitors pointed out. Jig-saw puzzles still hold sway and their makers claim the hundreds of new designs in the brain teasers will keep fans fitting pieces together for the next decade.

A 1933 boom in roller skates for adults prompted a variety of new models in that division, exhibitors claiming greater speed and balance.

Famous Tree Felled

Gift Of South Africa Was Destroyed By White Ants

Durban has just lost its famous red milk-wood tree, which was centuries old, 110 feet high, and possessed a trunk diameter of 15 1/2 feet. It was felled by axes not because it was in the grip of sealea decay, but because if had been attacked by white ants, which had eaten into it until it was a danger to the neighborhood.

How old it was nobody knows, but, at least, it was in leaf when the earliest explorers reached Natal, and has been a landmark in South Africa ever since Durban came into being.—London Sunday Pictorial.

Trading Business Brisk

One-Legged Man Gets Eight Shoes For Left One

Accumulated shoes for the left foot of Otto Wilbarger, Maumee, Ohio, who lost his left leg in an accident 15 years ago, has prompted him to search for trades.

A Maumee newspaper recently printed a story that Wilbarger wished to trade left shoes for right ones. Newspapers throughout the country reprinted the story and Wilbarger has received letters from many persons offering to "swap."

Wilbarger's left shoe is to persons in Washington, Kansas, Missouri, Oklahoma, and Wyoming and in return has received right shoes.

EVEN A PRINCESS' SOCKS SLIP DOWN.

This unusual camera snapshot was taken as the charming Princess Elizabeth, daughter of the Duke and Duchess of York, alighted from her father's car to attend the Royal Tournament at the Olympia. The popular little personage pulls up her socks unashamed by the smiling crowd which witnessed the Royal party's arrival.

Trade Agreement With France Now In Effect Is Expected To Prove Of Considerable Benefit

Evading Meal Tax Levy

Caterers In British Columbia Reduce Price One Cent

British Columbia's latest tax levy, signed as the meal tax, has aroused more comment than any other provincial impost in a generation. Hotel men, restaurant keepers and representatives of the travelling public have been bitterly protesting against the tax, chiefly on the grounds of inconvenience.

The tax is five per cent on all meals served in public costing fifty cents or over. The immediate result of the tax was the marking down of all after-meal lunches and dinners to forty-nine cents so that patrons of eating houses would be able to dodge the tax and the caterers would be spared the inconvenience of marking the extra charge and reporting to the government.

After several weeks' tryout, the general opinion is that the meal tax has not justified itself. The attitude of the public from the first has been hostile, and many formal protests have been made. In many instances diners have refused to pay the tax, in which event the restaurants have absorbed it.

So far, only one prosecution has been made for non-payment. A dinner on one of the Gulf of Georgia ferries refused to pay the tax on his lunch. He was convicted and fined \$5 and costs.

The revenue from the tax is said to be negligible so far. In most restaurants where two or more people are dining together, the waiters make out more than one check for the party, thus evading the tax if the individual's meal did not cost more than 49 cents.

Phonograph Is Popular

Russia Enlarging Factory To Produce Three Million Records

Enormous popularity for the phonograph, which in this country, has been largely displaced by radio, is evident in Russia. A record factory at Arzelyevka, now already the largest in the Soviet Union, is being further enlarged to make an annual production of 3,000,000 disks. It turned out only a little more than 1,000,000 last year.

The Canada-France trade treaty, signed by both countries on May 12, and approved by the Canadian parliament on May 23, has been proclaimed effective. Unless renewed by tacit consent of the signatory countries, the treaty expires May 12, 1934.

Since the old trade agreement expired a year ago the two countries have been applying their respective general tariffs to each other's products and the result has been that Canadian domestic exports to France, largely on that account, dropped from \$17,954,000 during the fiscal year 1931-32 to \$12,730,000 during 1932-33, or over 29 per cent, while imports from France declined from \$13,570,000 to \$7,713,000, or over 43 per cent.

"That illustrates the value of agreements in promoting trade," said H. H. Stevens, Minister of Trade and Commerce, in the course of a statement explanatory of the trade agreement. "We expect that under the convention, which now comes into force our commerce with France will soon grow to its former dimensions."

"The lowest effective tariff is granted on canned salmon. The provision in the agreement is that so long as the bill to modify present rates has not been put in force, canned salmon shall be accorded a reduction of 72 per cent, from the general tariff of 300 francs per 100 kilograms that is to say, a rate of 34 francs per 100 kilograms, or about 14 cents per pound. The application of that rate is limited up to September 25 to a quota of 25,000 metric quintals, or 2,750 tons, after which a new quota is to be established by agreement, observed Mr. Stevens.

French imports of Canadian canned salmon dropped from \$316,222 in 1931-32 to \$78,308 in 1932-33, so that much improved effort in the near future is anticipated.

Flax From Pedigree Seed

King George Tried Experiment On His Sandringham Estate

Linen made from flax grown on the royal estates at Sandringham is to be placed upon the market. W. H. Gibson, director of the Linen Industry Research Association, told the Royal Society of Arts that the association has long wanted to find a district where pedigree strains of flax could be propagated to the best advantage.

Until 1931 no really satisfactory locality or organization for this purpose has been found. In that year the King visited an exhibition staged at South Kensington, and on the suggestion that Norfolk might prove to be a suitable county for raising pedigree flax seed, he welcomed the idea of making an experiment in flax growing with pedigree seed on his Sandringham estate.

This was the first Sandringham experiment, and while it was most successful, more successful than the association anticipated the second Sandringham experiment of 120 acres, 4 times as large as the first is now being entered upon with the determination, if the season is favorable, to do much better.

Study Rural Life

Manitoban Goes To Europe To Engage In Investigation Work

John Everett Robbins, M.A., of University of Manitoba, who has been a member of the staff of the Dominion Bureau of Statistics for the past three years, has left for Europe to study rural life in the Scandinavian countries of Denmark, Norway, Sweden and Finland. He goes under the terms of a scholarly award by the Carnegie Corporation of New York and will engage in that special work for three months.

By "rural life" is meant an area that is characteristic of farms, i.e., such as the rural economic system of cooperative farmers' organizations, system of marketing; products and farm credits in these four countries. Mr. Robbins is a son of Mrs. W. C. White, of Darlington, Man.

WORLD HAPPENINGS
BRIEFLY TOLD

First air express to reach Winnipeg from New York arrived here June 12. A Northwestern Airways' plane made the trip in 20 hours.

Public works, instead of direct relief, will be the Quebec government's unemployment relief program this summer, Premier L. A. Taschereau has announced.

Canada will be represented at the fifth world's poultry congress, to be held in Rome, Italy, Sept. 5 to 16, next, by two official delegates, F. C. Elford, Master Poultry Husbandman, and W. A. Brown, chief of the Poultry Division, Livestock Branch.

Sir Kingsley Wood, British Postmaster-General, who attended the opening of the new Dagenham, Essex, head post office, said that only 38 mail bags were lost in transit last year, 40,000,000 having been carried by rail.

Increased preferences in the tariff on goods entering Trinidad and tobacco from Canada and other parts of the British empire have just been enacted. The changes are expected to benefit Canadian trade to a considerable extent.

More than 500,000 persons visited the Royal Scot, crack train on the London, Midland and Scottish Railway, between May 1, when she was placed on exhibition in Montreal and May 25, when she arrived in Chicago for the Century of Progress exhibition.

Increase of five per cent. in all salaries paid by the National Cellulose of Canada, Limited, will be put into effect this month it was announced. Better business during the past few months and complete confidence in the future were given as the reason for the salary raise.

In an emphatic denial that the Dominion government would be asked to call an interprovincial conference to discuss the limitation of working hours, Premier L. A. Taschereau stated recently, that the question had not engaged the attention of the cabinet.

Mars Not Inhabited

Such Is the Conclusion Reached By Scientists

Amateur astronomers and poultry raisers received a shock when the former learned Mars was uninhabited, and the latter that it was necessary to vaccinate healthy chickens.

Proof that there is insufficient oxygen in the bands around Mars to sustain life as we know it on the earth has been supplied through the medium of infra-red photography, Dr. W. S. Adams of Mount Wilson Observatory, Pasadena, California told delegates to the fifth Pacific Science Congress.

Dr. Adams said recent developments in photography showed clearly that the oxygen content of Mars' bands was probably less than one-tenth of one per cent.

"A shock to amateur astronomers," comments Dr. J. S. Plaskett, director of the Dominion astronomical observatory at Victoria, B.C., "but the truth must be told."

He added that it definitely set aside the idea of life on Mars as we know it on earth.

Addressing the animal diseases section of the congress, Dr. J. R. Beach of the College of Agriculture, Berkeley, Cal., said mosquitoes will carry fowl-pox from diseased to healthy chickens. Vaccination against the infection was the practice on many farms, the operation being done from 30 to 90 days.

Summer fallowing has reduced foot-rot diseases in western Canada. R. A. W. Henry, University of Alberta, told the delegates. He added that the effect of summerfallow in reducing severity of foot-rot varied with the seasons.

Has Two Passengers

Air-Commodore Sir Charles Kingsford-Smith has just announced in Wellington, N.Z., that he will fly his famous "plane," "Southern Cross," from New Zealand to England next fall if he can secure eight passengers. Two New Zealanders have booked seats with him at \$2,400 each.

Japanese Army Offers Condolences To China

Sorry For Losses Sustained In Fighting Around Peiping

The Japanese army which recently threatened to occupy Peiping as part of a campaign to clear the Chinese from the southern side of the great wall of China offered their recent foes condolences on the loss of Chinese lives in the hostilities.

Marking the second time a Japanese plane ever landed at this metropolis, a Japanese bomber—minus the bombs—came down on the Chinese airport at the outskirts of the city. It carried a representative of the Japanese army seeking a responsible Chinese official to whom he could hand the condolences.

Finding no one with authority at the airport, he took off again in the plane, flew over the Japanese legation and dropped a letter within a metal cylinder which requested the Japanese legation officials to convey the message to Chinese military leaders.

Search For Floating Gold

Many people hope for luck in finding ambergris.

In two articles in the Journal of the American Museum of Natural History, Robert Cushman Murphy, Curator of Oceanic Birds, assembles the known facts concerning ambergris, which he calls floating gold. The beaches of the Seven Seas have been searched for it. Dr. Murphy has scanned the surf line in Mexico, Peru, Ecuador, and the shores of the Mediterranean for a lump of it, and still hopes that his quest will yet be rewarded. The impression that there is plenty of ambergris about, and that any one may chance upon it sooner or later, is not to be warranted by the encyclopedist's assurance that the treasure may be picked up on the coasts of Brazil, Madagascar, Africa, the East Indies, China, Japan, the Moluccas, and of the West Indian Isles, particularly the Bahamas. The long Atlantic coast of the United States has been gone over mile by mile. At least forty enthusiasts have called at Dr. Murphy's office to learn whether a peculiar substance they brought with them was the real thing. Only one of them had been lucky enough to find ambergris. He was a prospector who had come upon a wolf in the act of sampling "a large chunk of carion" on the beach near Nome. Driving the animal away, he appropriated what was left. On being told by the curator that the stuff was actually "floating gold," he exclaimed: "To think if I had been ten minutes sooner that wolf wouldn't have cost me a five-thousand dollar meal."

While ambergris is sometimes cut out of leviathan's vitals, by whaling men, it was known and used by makers of perfumery centuries before the whaler made his discovery. A dealer in ambergris, which he purchases from whaling ships and beachcombers was Captain D. C. Stull of Provincetown, a friend of Dr. Murphy. The biggest sale known to him was that of a London merchant, who obtained \$18,360 for a lump of 270 pounds.

Making Large Advances

Canned Meat Exports Eight Times Greater Than Previous Year

Canned meat is a Canadian export which has been making large advances during the past year. During the 12 months ending April 1 the export volume total was 657,661 pounds, which was about eight times greater than the 78,810 pounds exported in the previous twelve months. Last month's export alone, 67,271 pounds, was within striking distance of the total for the entire 12 months of the previous year.

Big Laundry Bill

The hospital laundry is a big item of expense in the institutions controlled by the London County Council. In fifty-seven laundries attached to hospitals a staff of 1,100 washes more than 55,000,000 articles a year, at an annual cost of over \$1,000,000.

SUNDAY SCHOOL LESSON

JUNE 25

JESUS OUR LORD AND SAVIOUR

Golden Text: "All authority hath been given unto me in heaven and on earth. Go ye therefore, and make disciples of all the nations, baptizing them in the name of the Father, and of the Son, and of the Holy Spirit; and teaching them to observe all that I have commanded you; and lo, I am with you always, even unto the end of the world."—Matthew 28:18-20.

A Review By Means Of Allusions

Below are a number of quotations, all alluding to some event or saying in the lessons of the Quarter. Let pupils point out each allusion and tell the incident to which it refers.

O lead my blindness by the hand, Lead me to Thy familiar feast, Not here or now to understand, Yet even here and now to taste How sweet the bread of life is. On earth is broken bread is given Gladsome

Lord, grant us grace to love Thee so. This glad of heart and gird of face, At last we may sit high or low, Each in his place.

—Christina Rossetti

The rich are fairly jumping through the eyes of the eye-flocks of 'em-sleep at a gap.—C. E. Montague.

Remember that in this world every man uses top of privilege is used by the rules of lowly duty.—Henry Van Dyke.

A photographer makes his sensitive plate, exposes it to just the rays of the sun, then he changes it so it does not overexpose, and holds it up to the light to see if the picture is there. What else did this Great Teacher do one day but hold up those souls to the light of the sun if the reflection of the Son of God were fastened there?

J. Stiffer.

Frenck knew about all the raw things of life. He'd had the spongey hump atop his lips, and yet—when he was never beaten.

Warwick Deeping.

There is sighing in the pallid sprays Of these old olives, as if they kept their plying watch in Nature's faithful ways.

As on that night when the disciples slept.—Katherine Lee Bates.

What is a generation profited if it gains the whole world of means by which to live and loses its soul, the spiritual end of man to live?—H. Barnard Emerson Fosdick.

Jesus looked upon His teaching as a revelation, upon His Deeds as a revelation, and upon Himself as a revelation. These cannot be torn apart without violence. It would be like tearing the seamless robe.—John McDowell.

Well, how do you like the sermon?—A sermon that you will probably take centuries to eradicate. It is a demon which can be cast out only by prayer and fasting.

And there be palms Whereof the happy people strewing cried,

"Hosanna in the highest!"

—Longfellow.

Wisdom Of Nature

Mangrove trees do not scatter seeds as most trees do, as they would be swept by the water which covers the roots at high tide. The young plants are developed on the tree trunks and then fall like spears into the mud below.

Must Protect Forests

Canada and U.S. Are Given Significant Warning

Although not named other than "countries" on the eastern side of the "Pacific," Canada and the United States are given significant warning to check devastation of their forest area by fire in a resolution passed by the Forestry and Meteorology section of the Fifth Pacific Science Congress.

Following a meeting, a select committee consisting of Dr. C. D. Howe, dean of the faculty of forestry, University of Toronto; E. H. Bowe, of the United States weather bureau, San Francisco; S. Fujishima, Japan, and Dr. D. Y. Lin, China, prepared the following resolution:

"Whereas in many countries of the Pacific basin, especially in those on the eastern side of the ocean, forest fires are increasing in number and destructiveness;

"Be it resolved that the Pacific Science Congress invite attention of the countries concerned to the necessity of vigorous action in the suppression of forest fires in an effort to reduce the great depletion of standing timber, the destruction by uncontrolled floods and loss by soil erosion."

Britishers in China

Feel Currency Slump

Dollar Has Fallen To Half Of Its Former Value

With the silver dollar worth only 25 Canadian cents, half its former value, British residents in China, and in those Crown colonies where Chinese funds are used, are finding themselves extremely hard hit, according to J. E. Barnes, electrical engineer of Hong Kong. "If trade in silver currency ever returns to where it was there will be a tremendous upturn in business," he said.

Mr. Barnes emphasized the extreme poverty of the Chinese pointing out that about 40 or 50 of them manage to live in what here would be considered an ordinary-sized room. In spite of this, they are usually appreciative of the benefits of electricity. Hong Kong has electric lights even in the poorest slums of the city, he stated.

Mr. Barnes was in Montreal on his way back to England for a holiday.

Shrine In Railway Station

The new railway station of Johannesburg, South Africa, is probably the only station in the British Empire, outside of India, equipped with a shrine for the "faithful." An inner room has a praying mat on the floor and a shower bath has been installed so that the "faithful" who enters to pray performs his ablutions before he enters to pray. As a result "Allah Ho Akbar" ("God is Great") is now intoned in the station before the pious Muslim leaves on a train journey.

Alfalfa, once seeded, remains down for five or more years, and is therefore especially suited for permanent hay and pasture fields.

BRITAIN MAKES PAYMENT TO U.S. ON WAR DEBT

London, Eng.—Payment of \$10,000 in silver on Great Britain's war debt obligation of \$75,500,000 due the United States was announced to the House of Commons by Neville Chamberlain, Chancellor of the Exchequer, in a statement which acknowledged the "debt, pending final settlement."

Simultaneously the Chancellor stated formal debt negotiations between Great Britain and United States would be started at Washington as soon as possible in accordance with President Roosevelt's reply to the British remittance.

The United States accepted the partial payment, the Chancellor declared, "without prejudicing the freedom of either government in subsequent discussions."

News of the arrangement was hailed by the American delegation to the world economic conference and the Chancellor with high hopes that it might open the way for genuine progress toward economic re-habilitation.

The partial payment, Mr. Chamberlain told an enthusiastically cheering house, will be made in silver at 50 cents a fine ounce and constitutes Great Britain's acknowledgment of her obligation to America under the war debt account.

Labor and Liberal spokesmen, applauding the arrangement, joined Mr. Chamberlain in praising President Roosevelt for his acceptance of the scheme of payment.

"The difficult and delicate problem has been adjusted," the Chancellor announced in revealing the results of several days' anxious negotiations between London and Washington.

"It is a good augury for the success of the world economic conference and may prove the first step toward complete and final settlement of the whole of the war debts."

The Chancellor revealed that the British Government had hoped it would be possible for United States to accede to a request that the payment of the June instalment be postponed pending discussion of the war debts as a whole.

"They (the British government) maintained this hope up to a very recent date," the Chancellor continued. "In the end it became clear that it could not be realized. They therefore had to decide upon their course of action in these circumstances as they found them."

The American president was congratulated by Sir Stafford Cripps, Labor spokesman, for "the realism with which he has faced the situation."

Sir Herbert Samuel, Liberal leader, expressed his "deep appreciation of President Roosevelt's action in acceding to the agreement, which was a profound relief to all."

It was indicated in the House of Commons that Great Britain's \$10,000,000 debt instalment actually cost her around \$7,000,000, inasmuch as it was tendered in silver at the rate of 50 cents an ounce, under which debt remittances were permitted under recent congress authorization up to \$200,000,000.

Win Sweepstakes
Ottawa, Ont.—Word of their drawing about \$20,000 in Canadian funds from a sweepstake conducted by the government of Liechtenstein, a principality in the mountains of central Europe, reached Harry Breakell and his wife here. The sweepstake ticket, on the English Derby, cost Breakell, who signed himself "Lucky," about \$1.50. He purchased the ticket from a chance acquaintance.

Car Halts Runaway
Toronto, Ont.—With the use of his automobile H. Oakley stopped a runaway team and prevented what threatened to be a serious accident. When the team bolted, Oakley raced after them, drew in front of them and slackened his speed until he felt the tongue of the wagon against his car. He continued to retard his pace until the horses were slowed to a walk.

Small European Nations Would Follow Mussolini

If Big Powers Do Not Find Solution To Economic Problem

London, Eng.—The small nations of Europe have turned longing eyes toward Rome and a possible bloc under Benito Mussolini's dictatorship as the big powers, undecided over war debts and monetary stabilization, threatened progress of the world economic conference.

"Should United States, Great Britain and France fail to point the way out of the economic muddle at the world economic conference," Emile Francqui, the veteran Belgian diplomat, told the Associated Press, "the small nations of Europe will cluster about one stateman capable of leadership—Mussolini."

"It Duke is fostering sensible ideas for uniting action while the great powers are talking about civilization dropping over the abyss, but doing nothing. The small nations, crying for leadership, will follow Mussolini."

Overland Rates For Ships

Apply For Hull Insurance On Ships For Voyage From Vancouver To Regina

Vancouver, B.C.—Marine insurance agents were nonplussed when asked for rates on hull insurance on M.S. Vancouver City for a voyage from Vancouver to Regina. No marine insurance company has overland rates for ships.

However, the matter was simplified when it was learned the Vancouver Merchants' exchange wanted protection for the big model of M.S. Vancouver City, which was installed in the exchange by the ship's owner, Sir William Reardon Smith.

The model is to go on exhibition at the World's Grain Show at Regina and the exchange sought protection for it for the "voyage." This was obtained when it was realized that it was not a full-grown vessel that was going to cross the mountains.

Seeking Home In Canada

Baroness From Austria Wants To Settle In Dominion

Montreal, Que.—Eager to find a Canadian home for herself, her Austrian husband and their two children, the Baroness Von Bitschi will tour Canada within a week or so, she told newspapermen here as she boarded a Canadian National Railways train for New York. The baroness is well known as a distinguished painter in miniatures under her maiden name of Lorna Burgoyne.

An Englishwoman, Baroness Von Bitschi divides her time between her husband's Austrian estate and her native Devonshire. She and her husband have decided to settle in Canada and the tour of the Dominion is expected to find them a suitable home. The baroness hopes to found an association of Canadian miniature painters.

General Smuts Cheered

Given Rousing Reception By Delegates To Economic Conference

London, Eng.—General Smuts, who Deputy Prime Minister of South Africa, was the only one of eight speakers to be cheered as he went to the rostrum in the world economic conference assembly hall.

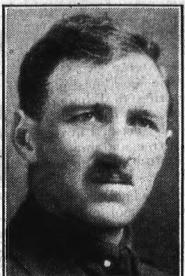

There was a roar of applause as the gaoted old man was called upon by Prime Minister MacDonald and walked to the front of the meeting hall. He listened for a moment in bowed appreciation.

Despite his 60 years, General Smuts appears fair-haired rather than grey, and is hale, hearty, vigorous figure. He flew here, 6,000 miles, from South Africa.

Decreased Revenue

Ottawa, Ont.—Considerable reductions in Dominion revenue during the first two months of the present fiscal year (April and May) are shown in the figures released by the Department of National Revenue. The customs and excise revenue in the two months has dropped \$1,101,405, as compared with the corresponding months last year, and the income tax revenue has fallen \$7,087,487.

ON TRADE MISSION

Hon. Thomas L. Kennedy, Minister of Agriculture for Ontario, who has called for England to reorganize the Ontario office in London and to lay the foundation of a greater overseas market trade between Great Britain and Ontario.

Canada's Foreign-Born Population

Saskatchewan Has Largest Number Whose Parents Are Not British

Ottawa, Ont.—Out of a total population of 921,785 at the last census, Saskatchewan had 396,619 persons whose parents were foreign-born. Those with Canadian-born parents numbered 219,289, while 170,356 had English-born fathers and mothers, a report from the Dominion Bureau of Statistics says.

Ontario had the next largest number of residents with foreign-born parents, these totalling 362,208.

The offspring of parents both foreign-born in the other provinces was: Alberta, 308,325; Manitoba, 237,781; British Columbia, 163,938; Quebec, 157,492; Nova Scotia, 13,657; New Brunswick, 7,331; Yukon and North West Territories, 1,281, and Prince Edward Island, 513.

May Meet At Rome

Important Meeting Being Considered By Four Governments

London, Eng.—An important meeting of Prime Minister Ramsay MacDonald, Premier Mussolini, Premier Daladier and Chancellor Hitler at the end of June, is being considered by the four government chiefs, it was revealed recently.

Premier Mussolini, Italian quarters said, is anxious to initiate his four-power pact for European peace by sensational face-to-face interviews with the other statesmen.

Regardless of whether the "Big Four" accedes to Rome's wishes, it is understood the first meeting under the four-power pact will be held in Rome before the Geneva disarmament debate resumes July 3rd.

15,000 FRENCH VETERANS 'INVADE' LONDON

The British capital woke quite early one morning recently to find 13,000 French soldiers "invading" the city. Fortunately for the sleepy Londoners, it was a peaceful invasion and the Foreign Office knew all about it. Here we see some of the 15,000 French ex-service men of the "Croix de Feu" marching in procession to Whitehall and the Cenotaph.

Wage Increase

Fleur Milling Company Announces Ten Per Cent. Increase

Montreal, Que.—Employees of Robin Hood Mills, Limited, in all plants across the Dominion, will receive a 10 per cent. increase in wages effective July 1, it was announced here by Charles Flitz, general manager, upon his return from a trip to Western Canada.

"I found a spirit of optimism on the prairies," Mr. Flitz said, "and must say that it is several years since I have seen the crops looking as well as they do now. Moisture is plentiful and even southern Saskatchewan, which has suffered so much from drought these past few years, has had plenty of rain and crops are in good condition."

"Business generally during the past 60 days has shown some improvement with us both in domestic and export markets. This may be accounted for by the fact that stocks in buyers' hands were generally very light and the advance in the market influenced purchases for future shipment in greater quantities than had been the custom for the past year or two."

Party Includes Westerners

Number Going To England To Attend Oxford Group House Party

Montreal, Que.—Oxford-bound Canadians from Toronto, Winnipeg, Vancouver and Montreal in the Canadian Pacific liners, "Duchess of Richmond," "Duchess of Athol," en route to take part in the first house party of the Oxford group since their return from North America, indicate the rapid growth of the group in Canada.

Sailing on the "Duchess of Athol" are a number of westerners who attended the Canadian house party held at Chateau Frontenac, Quebec, before the British visitors embarked on the "Empress of Australia," with a number from Toronto and Montreal.

Wheat Exports

Considerable Increase In Exports Shown Over Same Period Last Year

Ottawa, Ont.—The export of wheat in May totalled 21,464,848 bushels valued at \$13,604,791, according to a report issued by the Dominion Bureau of Statistics. This compares with 15,543,133 bushels valued at \$9,626,965 for the corresponding month last year, an increase in quantity of 26.92 per cent. and an increase in value of \$3,437,826.

The export to the United Kingdom last month was 13,066,521 bushels valued at \$7,894,456, compared with 7,184,698 bushels at \$4,378,962 in May a year ago, an increase in quantity of 82 per cent. and in value of 80 per cent.

MANY NATIONS ARE SUPPORTING TARIFF TRUCE

London, Eng.—The world economic conference is moving toward reality. More nations have joined the temporary tariff truce. Behind the scenes the pieces are shifting on the international chess board into new combinations; the gold countries of Europe are getting together.

Banking experts are grappling with currency stabilization, and the lobbies are full of gossip of bilateral trade agreements. Great Britain and the United States jointly call for reduction in excessive tariffs; in a world of high protection Holland raises a belated voice for wholesale tariff reductions.

The increase to 19 in the number of nations joining the temporary tariff truce was not the only bright factor. Not long after Prime Minister Ramsay MacDonald had announced the adhesion of the Netherlands, Roumania, Denmark and Finland, he called—and the plea was echoed by Secretary of State Cordell Hull, of the United States, and amplified by Maxim Litvinoff, of Russia—for world-wide agreement in the truce.

War debts were temporarily settled by the United States' acceptance of a payment of \$10,000,000 made by the United Kingdom in silver, and the atmosphere was lightened by President Roosevelt's invitation to Britain to send representatives for a conference on the debts, although the president made it plain only congress has power to make any revision.

War debts are barred from the agenda of the world conference but following emphatic declarations by Britain, Italy, Germany, Poland, South Africa and other nations that final settlement of the debts is essential to world-wide recovery, the conference could not fail to have been affected by the pre-debt payment uncertainty.

The statements of policy given by the conference by Neville Chamberlain, Chancellor of the Exchequer, and Secretary Hull, were in accord on a wide range of points, notably in an urgent demand for reduction of the excessive tariff barriers blocking world trade, and the United States delegation particularly welcomed the British program as brightening prospects for the conference's success.

Furthermore, it was authoritatively learned the conference of British, United States and French treasury and Central Bank experts which has been at grips with the troubled question of currency stabilization, saw much improved prospects of reaching an agreement on de facto stabilization.

Three figures dominated the conference scene as the nations big and little, submitted plans, proposals and suggestions in the plenary session. They were Neville Chamberlain, in precise phrase advancing the British plan; Cordell Hull, in more general terms, pleading earnestly for international co-operation, and stocky Maxim Litvinoff, carefree of the fate of capitalistic nations, yet offering a billion dollars' worth of orders—always conditional on the provision of satisfactory credits.

The British spokesman was emphatic that action must be taken simultaneously in the financial, monetary and economic spheres alike. The United Kingdom "will spare neither goodwill nor determination in our efforts to secure success," he promised. Mr. Chamberlain saw three great pathways to a solution:

1. Final settlement of reparations and war debts.
2. Abrogation of controls on exchange movements, and resumption of international trading.
3. Co-ordination of production and marketing, removal of prohibitions and similar trade barriers, and reduction of excessive tariffs in order to promote a normal flow of international trade.

Better To Perspire

Chatham, Ont.—If you are too hot to perspire—it's sunstroke, according to Dr. W. A. Eggle. Here no matter how hot the day, as long as humans perspire freely there is no danger of prostration from the heat.

Stony Plain Sun.

Two Ladies Injured.

While Mr and Mrs Louie Fuhr were motoring to Edmonton on Friday last, and had reached the corner of 111 av. and 116 st., their car came into collision with a car driven by W Louch. The Fuhr car was turned over into a ditch. Mrs Fuhr and a lady friend, suffering from bruises and cuts to their chests and arms, were taken to the home of friends in the city. Mr Fuhr escaped with slight injuries.

M Louch was put under arrest, charged with driving negligently on the highway, and in Edmonton police court on Saturday was fined \$15 with the option of spending 10 days in jail.

Our Federal Riding.

According to the re-arranged boundaries of West Edmonton Federal riding, the town of Stony Plain is left out, and is added to the new constituency, Edison-Jasper.

This new constituency takes in the districts bearing those names for the most part. It extends north as far as Chisholm on the Athabasca river, and runs west to the B.C. boundary. It also includes the Coalspur region.

Under re-distribution, West Edmonton loses such districts as Lac St. Anne, Morinville, Legal, Stony Plain, Spruce Grove, which are to be included in the new constituency.

While Peace River has been reduced in area, it still remains one of the largest constituencies in the country.

The Milk Supply.

At a hearing before Edmonton City council last week, on the question of the city's milk supply, Mr Marks, counsel for Harmel Brothers, the Stony Plain dairy producers, said his clients were excluded from the Edmonton market by the Edmonton city health inspection rule against going beyond 15 miles to inspect premises. Mr Marks said Harmel Bros. could produce milk at \$1.35 per cwt. He warned consumers that there was danger of two cents increase in prices, as suggested at the hearing before the Public Utilities Board recently and argued that producers farther away on cheaper land could produce more cheaply than those situated within 15 miles of the city. Restrictions would endanger the adequacy of supply and raise the cost to consumers.

CHAPTER XII.—Continued

In a vague way he realized that the triumph was his now, if his hands had strength to seize it. If only he could rise up, he could stand the Browning behind this nest and splatter every square inch of the bandit's covert. As he lay there, nearly helpless, fighting for one last flicker of strength to rise and use the machine gun, he heard Buzzard shouting at him across those seven hundred yards. He could not distinguish the frantic words; he thought Buzzard must be trying to heaten him to do more effort. But then he heard Joyce's voice, crying to him. Closer, vibrant with fear, the warning came to him clearly.

"Alan! Alan! He's coming for you! Alan! Stop him! . . . Shoot him!"

The panic and terror of her voice roused Alan. He understood that some peril was looming upon him from those bandits. With a great effort he rose to an elbow, drun with pain, giddy from loss of blood. A few seconds later, he crept on elbows and knees to the water edge and laved his face and managed to tie a kerchief around his forehead.

The bandage stopped the blood from running down and blinding him. The cold shock of water drove the nausea away for a little time. Again he heard Joyce crying out to him, but now it was a cry insarinate, despair-stricken.

He cautiously raised his head, and saw the peril that his two friends had tried to arouse him to meet. The huge red-bearded leader had seen him collapse helplessly, and was coming across to put a bullet through his brain and seize the machine gun. Sinking back unseen, Alan drew his heavy automatic, slipped the trigger safety, and waited. A few moments later, with his enemy within a dozen paces, he suddenly reared up, up above the shelter, shooting as he rose.

The seven heavy bullets caught the bandit leader in the breast, knocked him over, killed him instantly.

Crouching down again behind that pile of willow sticks and reeds, Alan turned to the Browning. Methodically he spread the tripod and planted it firmly and clicked it into its mount. Very carefully he fed in a web of

cartridges till it was caught. Rising to one knee then, clasping the spade grip, he cautiously raised his eyes above his shelter.

The breed with the deadly Savage, who had sent three bullets into his body and had drilled Jimmy Montgomery through the heart, was trying to make it back to the flags. Shouting hoarsely, he kept jerking his head around to see what his enemy was doing. Alan swerved the Browning a few degrees, looked down the sights, and his trigger finger tightened. . . . The breed stumbled as that of half a dozen caught him—stumbled and flung in the ankle-deep water.

Releasing his grip, Alan trained the Browning on that clump of flags where two rifles were still screaming at him, and when he had determined his concentration, the Browning went into play again. Methodically, the gun drumming out its message of death, he swept the clump from end to end, spraying it with bullets, mowing down the flags, splattering the bandits' hiding with a ringing, slow-weaving fire.

There in the flags a figure leaped up and blindly tried to escape. Alan swung upon it, the figure vanished, there was a thrashing for a moment among the reeds. To the right a single rifle still held out, shooting at him. He located the spot and poured a storm of bullets into it. . . . With a shrill yell a small wiry man sprang up, flung his gun spasmodically into the air, doubled up limply and sank down in the flags and mud.

Alan stood up then. He thought to swim across and get one of those canoes and go after Joyce. But he had not the strength. The nausea was overpowering him again; his wounds had bled him weak, and the pain of them sickened him. Staggering from the fearful reaction setting in, he sat down on the swan nest, with his world swimming in front of him and all his senses reeling.

It was four days later that those who waited at Fort Endurance learned what had happened northeast in the Land of Many Waters.

One evening at sunset an airplane came swinging around the timbered headland down the Mackenzie. Flying low, just over the water, it veered in toward the steamer landing, touched lightly, skinned the wavelets, and taxied close in.

An excited group began gathering at the wharf, the scarlet-and-gold police launch hove in sight around the headland and bore on toward the post. The two craft must have timed themselves to come in together.

Three Indian canoes darted out to tow the "plane in, to the landing, Father Claverly had come down the terrace and stood a little apart, quietly watching with observant eyes. Haskell and Williamson had come down; and Elizabeth Spaulding, slipping through the crowd, was trying to edge up near the pier-heads, to be the first to greet Alan Baker.

As the launch drew closer, the crowd saw it carried four men. When it nosed alongside, they recognized Pedneaut and Bill Hardsock, mudied, unshaven; and Alan Baker, a bandage around his head, his left hand wrapped in surgical dressing, his left arm in a splint. The fourth man was some outlandish individual of yellowish complexion and almond eyes, with his right arm carefully splinted and bandaged.

The freightage that the launch carried—a machine gun and cluster of rifles, a half dozen bales of peltry, worth a small fortune each bale, shovels and corded packs, and a few stout leather pouches sewn with rawhide in the prospectors' tradition—the mere sight of which could draw a gasp from the crowd and brought them edging up close.

Joyce had come with Buzzard in the "plane. As the unmannaged her safety belt and stood up, she was reacquainted her last time here at Endurance, when her father was still alive. It seemed a heartless irony of fate that he had died just when his innocence had been proved. Small comfort to know that his name and memory were cleared of guilt. As she thought of him lying dead at Resolution and of the tragic duty calling her there, she was glad that tonight a steamer was coming past and she would leave this North.

By the time she and Buzzard had skinned ashore, Alan had stepped out upon the planking. In another mo-

Joyce, if you have time tonight, step over to my study and visit me, won't you?"

"Why yes, Father Claverly, if you wish. I'd better come before ten; the steamer may be here any time after that."

"You're leaving tonight?"

"Yes. There'll be no other for two weeks. But told you I'm going back to Ottawa."

Father Claverly nodded, and a little after, turned his back.

Joyce was deeply serious, in her last words to Alan:

"You'll not forget what we talked over—the Inconnu trap?"

"I'll not forget. But he may not walk into it, Joyce. He's shrewd, he's careful."

"You can be shrewd, Alan! You can make him walk into it. Let him think he's got you beaten and hopeless. Hide what you feel. And don't antagonize Superintendent Williamson."

(To Be Continued.)

Buy Edison's Home

Henry Ford Moving House From
Ontario To Michigan

The childhood home of the world-famous inventor, Thomas Alva Edison, at the village of Vienna, near St. Thomas, Ont., has been purchased by Henry Ford, and will be renovated and re-erected in the Ford historical settlement at Dearborn, Mich., it was reported. Mr. Ford, a friend of the inventor, inspected the property. The house in which the late Mr. Edison spent his boyhood summers was built by his grandfather, Capt. Samuel Edison.

While in Vienna, Mr. Henry Ford and party had supper at the Vienna Hotel, part of which is said to be one hundred years old. The outside walls of this part are made of one-inch lumber, six inches wide, piled one upon the other.

Many stories are told by old residents of times in the old hotel in lumbering days and open bars, when liquor flowed freely and arguments were often settled by a fight, one of which it is said, ended in the death of a man.

The hotel is now owned and operated by W. C. McDonald, who, while working in the ground around the house, has dug up a number of interesting old coins.

Under Bolshevik Rule

Russian Peasants Without Bread and Food Shortage Is Acute

Malcolm Muggeridge, writing in the Fortnightly Review, says, the struggle for bread in Russia has now reached an acute stage. All other questions are superfluous. It is war between the Government and the peasants, and this year's spring sowing will be a—perhaps the—decisive battle.

After fifteen years of Bolshevik rule, large areas, some the most fertile, notably the North Caucasus, the Ukraine, and the Volga districts, are quite without bread; the population is, in the most literal sense, starving; even in the large towns the food-shortage is acute, and every day grows more acute. More serious, the soil is impoverished, choked with weeds; at least 70 per cent of live-stock and horses have been killed to eat or have died of starvation.

Palestine's Early Farmers

Cut Grain With Sharpened Flails Fitted To Stick

Palestine had its busy farmers 20,000 years ago, Dr. George Grant McCurdy of Yale University makes this declaration to the American Philosophical Society at Philadelphia. This carries the farming man twice as far back as the Neolithic man. Dr. Grant exhibits skeletons of these long-headed, stooping Palestinian planters. The university's expedition brings back the most primitive sickles ever seen.

First farmers cut their grain with sharpened flails fitted to a crooked stick—Christian Science Monitor.

Ensures Freshness

A trawler is operated in the southern waters of France on which fish are frozen alive after being caught. The fish are then kept at a uniform temperature of over 20 degrees below zero, so that they can be transported without losing their freshness.

Use ST. CHARLES MILK

and you will, probably, find that it has a delicious, rich, cream-like flavor. Try it for creaming soups and for vegetables, in fact whenever a recipe calls for milk. It makes all good cooking BETTER!

ST. CHARLES MILK
UNSWEETENED FLAVORED

Little Helps For This Week

"Let us not therefore judge one another any more; but judge this rather, that no man put a stumbling rath or any occasion to fall, in his brother's way."—Romans 14:13.

My mind was ruffled with small cares today, And I said pettish words, and did not keep Long-suffering patience well, and how deep My trouble for this sin; in vain I weep For foolish words I never can unsay.

—H. S. Sutton.

A vexation arises, and our expressions of impatience hinder others from taking it patiently. We say an unkind thing and another is hindered in learning the holy lesson of charity that thinketh no evil. How sadly too we may hinder without word or act. For wrong feeling is more infectious than wrong doing, especially the various phases of ill-temper, gloominess, touchiness, discontent or irritability, do we not know how catching these are?—F. R. Havergal.

Preserving Old Names

Historical Associations Highly Regarded By Modern World

Without the veneration for the old names of streets, cities and counties, some of the members of the House of Commons sought to change the names of the electoral ridings during the debates of the gerrymandering committee. In Nova Scotia three counties were to be called "Evangeline," a name made famous by the poet Longfellow. At one time there was in Victoria, British Columbia, a street called "Bird Cage Walk," perhaps the most charming thoroughfare in the Capital. Along came the rough-and-bruised brigadiers and transformed it into Government Street. We may date our lineage back to Adam, but there are many who would show a descent rather than an ascent in culture. Preservation of old names is akin to some regard for the historical and the memorial—Sherbrooke Record.

One Big Advantage

The one crop farmer, who buys all his food at the village grocery and turns his farm into a kind of factory for the production of one staple commodity, is especially vulnerable to any depression. The farmer who raises his own food is at least sure that he will never go hungry. And that, in times like those through which we have been passing, is an assurance worth having.

Ensures Freshness

A trawler is operated in the southern waters of France on which fish are frozen alive after being caught. The fish are then kept at a uniform temperature of over 20 degrees below zero, so that they can be transported without losing their freshness.

THAT DEPRESSED FEELING
IS LARGELY LIVER
Wake up your Liver Bile

Without Calomel

You are "feeling punk" simply because your liver is not working properly. It is a natural bile into your bowels. Digestion and elimination are not carried on, and your entire system is being poisoned.

What you need is a liver stimulant.

Take a glassful of the Liver Bile Pill, Purdy's Vegetable Compound, twice daily.

Take a glassful of the Liver Bile Pill, Purdy's Vegetable Compound, twice daily.

TAKE
ALONG
TIN OF MECCA
ON HOLIDAYS

Don't let Sunburn, Windburn, Poison Ivy, Mosquito and Insect Bites spoil your holiday. Mecca Ointment is almost magical in soothsaying away such trouble. It is a summer camp or cottage should be without Mecca—especially where there are children. Mecca Ointment is available in 1/2 oz., 1 oz., 2 oz., 3/4 lb., 1 lb., 2 lb., 3 lb., 4 lb., 5 lb., 6 lb., 7 lb., 8 lb., 9 lb., 10 lb., 11 lb., 12 lb., 13 lb., 14 lb., 15 lb., 16 lb., 17 lb., 18 lb., 19 Sunday's Church Rally.

The Church Rally at Holborn hall on the 18th was a fair success. A splendid entertainment was put on by the Sunday school pupils. Miss Edith Oatway and Mrs Dr Ronaldson gave us two splendid songs. Mrs Anderson, accompanied by Miss E. Anderson and Mr W. Schlecker, sang a very beautiful hymn. Mr Donaldson gave us a solo on the piano.

The Wawryk Case.

At the adjourned sitting of Edmonton city police court, on Friday, before Magistrate Primrose, Mr C Witherspoon, charged with being the driver of the car which struck and killed Mr Wawryk in the City Oct. 24th, was remanded for trial in Supreme court. Clarence G. Singer, who is said to have been riding in the back seat of the car at the time, was also sent up for trial.

In Memorium.

IN LOVING MEMORY OF
Edward Philip Buder,
Who Died June 23d, 1932.
Days of sadness still come over us:
Tears in silence often flow.
For memory keeps you ever near
us.

Though you died one year ago.
Inserted by Dad, Mother, Brothers and Sisters.

A Graduation Service.

A graduation service for high school students will be held in United church next Sunday, 7:30 p.m. Ministers of other churches are expected to be present, Rev W E Sieber will take as his subject "The Pain and Power of Purposeful Thinking." All high school students and their parents invited. Others welcome.

During the month of July and until further notice "Twilight Services" will be held in the United church every Sunday Evng at 8, and will be only 45 minutes in length.

Holborn Happenings.

The Holborn Juniors held their vocational meeting on the 10th. During the early evening basketball was practised on a muddy court. A couple of the boys had the misfortune of descending ungracefully into the waterlogged dust. A fair attendance was had.

Mr A P Anderson for the past week has been turning things upside down, trees, stumps, ground and even the hired man was caught with his cranium among the sods and his feet where his head should be.

Bob Woodley, the great captain of the Holborn Juniors, intends escorting his ball tossers to the U. F. A. picnic on the 21st at Seba Beach. For a battery he has Geo Shaul as catcher, while as pitcher and also Art Everington Art, although a junior member of the team promises greatly to be our star pitcher. He has the stuff, so when you have the opportunity just watch his smoke.

A Rally Service is to be held in the Holborn Hall on the 18th. An entertainment will be put on by the Sunday School commencing at 2 Service and singing will follow with a lunch and silver collection at the last.

Mr W Mills, after 3 years of successful teaching, has resigned and will retire into private life.

The Holborn Rifle Range had their opening practice on the 11th. H J R

Duffield's Picnic Is Next Sat.

The Sec. of the sports committee of the Duffield picnic is in receipt, almost daily, of letters informing him of the intention of those from the nearby resorts and towns to attend Duffield's picnic on Sat. next, June 24.

A large delegation is expected down from Alberta Beach; another from Onoway; and still another from [far] Rocky Rapids; thus assuring a big attendance for this popular annual event.

Special interest is being taken by those followers of the many art of self defence in the series of boxing bouts, the first of which is billed to start at 4 p.m. As there are a number of new mitt artists entered, including "Kid" Gruden, who fought Benny Tait last week for 8 rounds to a decision, it is to be expected that the fight fans will get a run for their 2 bits.

The attractions committee, on the lookout for something new and unusual at picnics has arranged to have an authentic and reliable clairvoyant on the grounds during the afternoon. This is to be none other than the renowned Madame Albani, from Cairo.

In addition to the above, there will be horse racing, rooster catching, races for the youngsters, horse shoe contests and base ball games.

Another prize has been added to the already long list—100lb. bag of flour to the largest family present on the grounds.

Duffield one big day is to conclude with a Community dance in the evening.

Inga Ratepayers, Attention!

Notice to the Taxpayers of the Municipal District of Inga No. 630—

A number of taxpayers are strongly of the opinion that the farmers in the Inga Municipality should have an opportunity of working out a part at least of their tax Arrears. With a view to a full discussion of this matter, a meeting is called for 2 p.m. on Saturday June 24th at the town hall, when it will be decided what steps should be taken in this connection.

This matter is of supreme importance to all farmers in the District, and a well attended meeting is very desirable.

Stony Plain and District.

Mr and Mrs Emil Krebs, Scotford, were Sunday visitors at the home of Mr and Mrs J Becker.

Mr and Mrs Henry Miller made a motor trip on Sunday to Beaver Hills, visiting with Rev B F and Mrs Behrends.

The anxious looks at press noticed on the faces of H.S. pupils are explained by the fact that they're in the throes of the Departmental exams. These cease on the morning of Friday, June 30, when German 2 and 3 are the subjects to be examined.

BUTTER AND EGGS WANTED
At The Royal Cafe.

Death of John Schmidgelski.

The funeral took place on Monday last of Mr John Schmidgelski, of Manly District. He had passed away on Saturday in an Edmonton hospital. John was well known to the business people of Stony Plain.

Items of Sports.

The Stony Plain "Buds" had the honor of playing St Matthew School in a basketball game. The Buds won by a score of 4—2. The scores were made by M Gannon and B Reiser. This is the second one this season, and the Buds won both. Arrangements are being made for another game.

Stony's Junior Girls Basketball team won from Garden Valley Girls on the latter's grounds, Friday, by a score of 7—5.

The advance sale of tickets for Edmonton Exhibition is now on—5 for \$1. Get yours at the Royal Cafe.

Commercial Fertilizers Are Beneficial.

Those who are interested in the use of commercial fertilizers for wheat should drop into the experimental station, Lacombe, where a crop of wheat fertilized, at the rate of 100 pounds per acre, is making a remarkable showing as compared with the unfertilized crop.

This crop is in the tillering stage. The difference between the fertilized and unfertilized portions is so great that the difference can be seen one half mile away.

The possible explanation of this wonderful response to fertilizer treatment may be due to the fact that the land in question has grown nothing but wheat since 1911 and has received no manure of any kind since that date.

The results are interesting for the reason that there are thousands of acres in the province of Alberta that has been growing cereal crops continuously for a much longer period.

Baseball Prattle—By H.C.O.

Anybody who saw last Wednesday game got their money's worth, and there were only a few lucky ones at that. The game started out as usual, with the score about 3 for the wrong side in 1st inning, and looked like another loss. But things soon began to happen. It was 5—all in 6th and 7th and we had a scoring rally in 8th, to count 7 runs. Twas a fairly good game, and Ed Enders hurled good ball to win 12—7.

Well on Sunday it was so clearful. We lost at Marlinville 7—0; 2 bad innnings spoiled the day for us. Marlinville player errorless ball, which is as near perfect as one can get. It was 1 of the nicest games I've seen this year. Stony played a good game and didn't deserve such a fate. I predict right now that we'll beat Morinville when they come to Stony. That'll be a game with no small amount of fire and dash, and if you miss it, it'll be your tough luck.

What we could use right now, since we play 4 games in 8 days, is a couple of good pitchers. Carl Lobile would look nice in a Stony uniform, and he can hit the pill, too.

The 8 Cleaners play their last game here on Sunday, till the playoffs (if the laundry boys are lucky enough to be in there with us—of course), so I'd advise you not to miss the game, as it will be a good one.

Standing Big Five Ball League, at June 20—

	P	W	L	P.C.
\$ Cleaners	5	4	1	.800
A.N. Cub	6	4	2	.667
Morinville	6	3	2	.500
Red Sox	8	3	5	.375
Stony Plain	5	1	4	.200

Next home game June 25

Church Services.

Services in St Philip's Church next Sunday, 9:30 a.m.

Service at St Matthew Lutheran Church, Spruce Grove, 10:45 a.m. next Sunday.

German Lutheran services will be held in Stony Plain next Sunday at 2:30 p.m.

United Church service every Sunday Evng. at 7:30.

On Sunday July 16 there will be Lutheran services at St Matthew Schoolhouse at 7:30 p.m., by Rev. H. Kuring.
